"I can hear loads of efforts  
to create original music with  
honest intention and real creativity  
especially with that mix of old  
school rock and modern sound.  
Guitar tone, drums production,  
bass timbre and vocal recordings  
are right on point. Mixing succeeds  
in elevating that powerful  
orchestration into a real ride.  
Mastering is nailed."  
Etienne Pelosoff (sound engineer)

"Your music is good in the song  
production technique of this song.  
The song is truly well written in the  
notes and chords, which is well  
produced. The song has a good  
harmony and rhythm that sync's  
perfect with your good guitar sounds.  
The song is truly good in the sense  
of feeling more like and up-tempo  
atmosphere and gives a rise in the  
music and vibe."

contentant pas d'un simple  
hard rock mais explorant bien  
d'autres entités musicales.  
Le résultat est d'une puissance  
phénoménale. Bravo !"  
MUSEANIMA (France)

"Hailing from France, these
